Dear Parent / Carer

SIMS PARENT APP

We are launching a new convenient way to share information with you, to help you stay up to date with your child's school life as well as support your child's development and progress. We feel that it is important that we form a strong partnership between students, home and school and communication is the key to this.

SIMS Parent App is an online system which you can access either as an App from a smartphone or tablet, or online via a website – anytime, anywhere. [SIMS Parent App](#) and website will allow you to monitor your child's progress in school more closely than ever before.

You will shortly receive a registration email from noreply@sim.co.uk containing a unique invitation code. You will need this code to set up your SIMS Online Services account. If you do not receive this email please check your SPAM/Junk folder before contacting us. Please note, the invitation code in the email is **unique to you** and will expire after 14 days if it is not used. Please contact school if you require a replacement after this time period.

Kind regards

Mr J Kinley
Assistant Head Teacher

WHAT IS SIMS PARENT APP?

The SIMS Parent app gives parents easy access to important school information, giving a convenient way to share information with you about your child's school life. You can access the system from a smartphone, tablet or computer – anytime, anywhere.

What will you find in the SIMS Parent app?

- School term dates, attendance and contact details available at the click of a button
- Your child's school report and progress tracking sheets will be automatically available on the app
- Achievement points will be updated daily on the app, allowing you to quickly track how they are performing in school
- Behaviour points on a daily basis
- Access to update your contact details, so we always have the most up-to-date information. This can also be updated via the app should you wish to change any details
- If you have more than one child at school, you will have access to information for all your children, from the same app

The information that you receive through the app will help you to stay up-to-date with your child's school life as well as support your child's development and progress. The SIMS Parent app benefits from 'single sign-on' meaning it is very easy to use if you have an account with Google, Microsoft, Twitter or Facebook. It will allow immediate access to your child's data on mobile devices or your computer at home.

*****Please note that there will be limited information available to begin with*****
