

iRoundUp is on its way to ParentPay...

Supporting charities across the UK

The award-winning charity fundraising idea, iRoundUp, developed by students during a national entrepreneurship competition from Mosaic, The Prince's Trust mentoring charity, enables parents to add a donation whilst paying on ParentPay.

Five students from Skinners Academy in Hackney, East London won the 2015 Mosaic Enterprise Challenge, with their Dragon's Den style pitch for iRoundUp, based on rounding up small amounts on ParentPay to raise money for charities.

How does iRoundUp work?

iRoundUp is simple.

Whenever a parent makes a payment online via ParentPay, they have the option to add a small donation to their basket, before completing their payment.
